

## **Alex's Time Machine**

Written by Lam Tsz Yeung (5A)

On 30th June, 2017, Alex invented a time machine. He climbed into his time machine, set the dial, and pushed the start button. Whoosh! Off Alex went to explore the Earth in the year of 3000.

The door of the time machine opened. First, he went to the future and bought a flying car. Then, he went to Zing dynasty and put his time machine in the hill and used his super flying car to find the emperor. He pushed the start button and flew to the sky. After that, he became invisible.

He found a lake near a mountain. He also found a cave nearby. He made a lot of furniture in the cave. The next morning, he started to play. He played from the morning to the afternoon and he was very happy. Then, he took a rest and started to cook the food to eat. After that, he went out of the cave and drank the water in the lake. Then he went to sleep. The third morning, he went to find the emperor. He rode his super flying car to find him. But he could not find him. He felt upset.

The next day, Alex wanted to come back to the year of 2016. He rode his flying car and found a lot of places. Finally, he found the time machine at the bottom of the mountain. After that, he climbed into the time machine and went back home quickly. He felt tired but excited!
