A thank you letter to Lok Wah Catholic Primary School

Dear Lok Wah Catholic Primary School,

How time flies! In the blink of an eye, six years have gone by. It is time to say goodbye to Lok Wah Catholic Primary School. I am reluctant to leave the school. I think my school is my second family. Also, I think the school is like a farm. All teachers are farmers. The students are seeds. The study is the growing of the plants. Therefore, I am lucky to study in this school.

In these six years, the school has helped me a lot. If I had academic problems, the teachers taught me immediately. Besides knowledge, the teachers helped me explore my other talents, such as science. Also teachers assisted me to find out my potential. Indeed, I learnt a lot at school too. I wanted to thank Mr Lam because he guided me to join lots of competitions so I could learn some new things about STEAM. Besides, I have gained confidence. I will never give up. I have learnt how to overcome difficulties and believe in myself too.

Finally, I want to be a scientist in the future because I have found my hopes, dreams and ambitions in my school. I would like to say thank you to all the teachers. I hope my school will head towards the 100th anniversary.

Love,

Chan Chie Yeung

6B student
