

## Stuck on the Island

Written by Chung Yu Tung (5A)

Tom and Jack went to the island by boat. It was a beautiful, sunny day and the sea was calm – just the sort of day to visit the island.

First, the boys made a sandcastle, and then they went for a swim. They caught a very big crab. Next, they started a fire and put a potato in the fire. They added salt, pepper and sugar and they made potato chips! Then, they ate them. Tom said, “So yummy!” They also ate fried fish.

After that, they wanted to go home, but they couldn't see the boat. Tom said, “Oh, no, we've lost the boat!” They felt worried and upset. Suddenly, Jack had an idea! He said, “We can take a bottle and put a paper with a message in it. We can throw it in the sea and hope someone will find it.” “But what if no one finds it?” asked Tom. Suddenly, Jack shouted, “I have my phone on me!” With a relief, they phoned the police. Ten minutes later, a plane came to their rescue and they safely got home.
