

The Deep Cave

Written by Poon Chak Lam (5B)

Once upon a time, a team of scientists went to a deep cave. As they explored the bottom of the deep cave, they were surprised to find some zombies. They felt shocked and scared.

They wanted to escape and they met a ghost. 'There is an exit,' the ghost said. 'There is a picture on the wall,' a scientist said. At the same time, they fell down into a grave.

They were very frightened and asked, 'Where are we?' Then some zombies came out to chase the scientists again. The scientists were so scared. They ran and ran. They ran to the exit. They escaped from the deep cave finally. All of the scientists were safe and they felt relieved.
