

The Treasure Chest

Written by Cheung Yuk Sing (5B)

The magic key took the children underwater. They saw lots of fish and interesting sea creatures. They saw an octopus...

It was sitting on a treasure chest. The children blew bubbles at the octopus, so it went away. The children pushed the lid over and opened the treasure chest. It was full of gold!

Suddenly, a shark swam to the children. However, it wasn't scary. The children made friends with the shark. They took some gold and shared it with the shark.
