

The Treasure Chest

Written by Tsang Tsun Yiu (5A)

The magic key took the children underwater. They saw lots of fish and interesting sea creatures. They saw an octopus...

It was in front of them. Even though they swam fast, they couldn't escape. Suddenly, Nick had a great plan to make it go away. They kicked it very hard and got away safely.

Meanwhile, they saw a large chest on the ground.

They saw a lot of treasure inside it.

Then a shark saw them. Chip and Wendy saw it too, and they told Biff and Nick to swim away. They found a cave and hid inside it. The shark was too big to fit in it. Suddenly, Nick remembered to punch the shark in the eyes to make it go away. So, they punched the shark's eyes. They took some treasure. The magic key began to glow and took them back home. At home, there was a small shark in their fish tank. They thought it was weird...
